

# Ayesha Khan

MERN Stack Intern | React, Node.js, MongoDB | Lahore, Pakistan | student@smarthire.ai

Portfolio-ready internship candidate with hands-on MERN project experience, JWT authentication, dashboard workflows, API

## Skills

React.js, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB, REST APIs, JWT, GitHub, Cloudinary, Socket.IO

## Projects

- ? SmarthHire AI job portal with role-based student, recruiter, and admin dashboards.
- ? Built resume upload and application tracking workflows using Cloudinary and MongoDB.
- ? Integrated real-time notification concepts with Socket.IO and protected API routes with JWT.

## Experience

### MERN Stack Intern - Academic Project

- ? Created reusable React components for dashboards, job cards, forms, and status badges.
- ? Implemented backend controllers, routes, and MongoDB models for jobs and applications.
- ? Tested full local and cloud workflows including MongoDB Atlas, Azure backend, and Vercel frontend.

## Education

BS Computer Science - Internship-focused MERN stack training

## Career Goal

Seeking a frontend or full-stack internship where I can contribute to production-style React interfaces, API integration, and database-backed features.
