

Emma Johnson

Junior Cloud Engineer Candidate

London, United Kingdom | emma.demo@smarthire.ai | SmartHire AI Demo Resume

PROFILE

Cloud-focused computer science student with hands-on practice in deployment workflows, Linux basics, uptime checks, and release documentation. Comfortable reading logs, tracking incidents, and supporting reliable web application delivery.

CORE SKILLS

Azure App Service

Docker basics

GitHub Actions

Linux

CI/CD

Monitoring

REST APIs

MongoDB basics

SELECTED PROJECTS

- Cloud deployment checklist - documented environment variables, build steps, health checks, and rollback notes for a Node.js demo API.
- Service monitoring board - created a lightweight status tracker for API uptime, response checks, and deployment notes.

EXPERIENCE

- Cloud Lab Assistant, University Project Studio - reviewed deployment logs, documented fixes, and helped classmates test Node.js apps on Linux hosts.
- Open Source Practice - contributed issue notes and reproduction steps for small JavaScript tooling bugs.

EDUCATION

BSc Computer Science, University of Manchester - Expected 2027

Target roles: Junior Cloud Engineer, DevOps Intern, Platform Support Intern
