

Mei Chen

AI and Mobile Engineering Candidate

Singapore | mei.demo@smarthire.ai | SmartHire AI Demo Resume

PROFILE

Full-stack learner focused on AI-assisted workflows, API integrations, and mobile-first React interfaces. Comfortable prototyping with Node.js, evaluating prompt output, and connecting frontend screens to backend services.

CORE SKILLS

React

React Native basics

Node.js

REST APIs

OpenAI API

Prompt Evaluation

MongoDB

Authentication

SELECTED PROJECTS

- AI job assistant prototype - connected form inputs to an AI endpoint and reviewed fallback behavior for quota and validation errors.
- Mobile fintech screens - built responsive account, login, and transaction-card layouts with reusable React components.

EXPERIENCE

- AI Product Lab Participant - tested prompt variations, scored output consistency, and documented improvements for generated text.
- Frontend Developer Practice - implemented reusable cards, forms, and navigation flows for student portfolio projects.

EDUCATION

BSc Information Systems, Singapore Management University - Expected 2027

Target roles: AI Engineer Associate, Mobile App Developer Intern, Full-Stack Intern
