

Sofia Garcia

QA Automation Intern Candidate

Madrid, Spain | sofia.demo@smarthire.ai | SmartHire AI Demo Resume

PROFILE

Detail-oriented software student interested in browser automation, regression testing, form validation, and release quality. Strong at writing clear bug reports with steps, expected results, screenshots, and severity notes.

CORE SKILLS

JavaScript

Playwright basics

Cypress basics

Regression Testing

Bug Reports

API Testing

Git

Agile QA

SELECTED PROJECTS

- Login flow test pack - drafted automated checks for valid login, invalid password, form validation, and protected route redirects.
- Job portal QA checklist - tested search filters, application forms, file uploads, and notification states across desktop and mobile widths.

EXPERIENCE

- QA Practice Lab, Student Engineering Group - wrote reproducible issue reports and retested fixes before demo releases.
- Frontend Coursework - built small React pages and verified component behavior with manual and automated checks.

EDUCATION

BSc Software Engineering, Universidad Politecnica de Madrid - Expected 2027

Target roles: QA Automation Intern, Software Testing Intern, Frontend QA Trainee
